

# Parker Sea Water RO Membranes and Pleated Filters

## Sea Water RO Membranes

Parker thin film composite reverse osmosis membranes deliver high salt rejection while maintaining high production rates to obtain the energy efficiency demanded by plant operators.

By selecting the highest grade of materials and applying thorough test requirements, Parker is able to offer the highest quality products.

Parker membranes are designed for use in Parker Village Marine and Sea Recovery pressure vessel housings as well as other brand housings.

North Sea Series

## Pleated Filters

The Parker line of pleated filters are designed specifically for the RO watermaker industry and are superior to wound or polyspun cartridges. Dense pleat design provides a longer filter life, increased flow rates, and reduced cartridge size.

Available in a wide arrange of sizes and micron ranges to ensure that every type of watermaker filter need is taken care of. Stock sizes fit most standard filter housings, if the size you need is not shown please contact us with the dimensions required.

ENGINEERING YOUR SUCCESS.

## Spares and Consumables

Part Number	Description
27240331PK	Membrane 8" HR/HY W/Seal
45012004	Membrane 4" W/Seal
45012007	Membrane 8" SWRO
2724044133	Membrane 8" HR/LE W/Seal
27240126FL	Membrane 4" SW C/S W/Seal
27240327TO	Membrane 4" X 40" LG
27240442TO	Membrane 8" HR W/Seal
2724011333	Membrane 700GPD AW W/Seal 3"
2724011433	Membrane 900GPD AW W/Seal 3"
2724011233	Membrane 450GPD AW W/Seal 3"
2724010633	Membrane 200SW AS W/Seal 2.5"
2724011133	Membrane 400SW AS W/Seal 2.5"
2724012633	Membrane 4"SW C/S W/Seal 2.5"
33-0238	Membrane, Sea Water, SW-2538
33-0440	Membrane, Sea Water, 4040
33-2519	Membrane, Sea Water, 2519, SW-2521
33-6030	Membrane, Sea Water, 6030, COML
33-0036	Membrane, Sea Water, 6040, COML
33-2521	Membrane, Sea Water, 2521
33-6040	Membrane, Sea Water, 6040, SUB
33-8041	Membrane, Sea Water, 8040

\*All 19" and 38" elements come with a 2" removable extender so that the stocked size also fits 21" and 40" housings

\*\*Elements are specially designed for low feed flow applications.
